

Concept: Design a mobile web-based app or platform that can centralize all the information, needs, and available resources for people/communities who are now abiding by the shelter in place or the stay in place executive orders because of the pandemic.

Screens:

1. Menu Screen
2. Profile Screen
3. General Info/Resources
4. State/Municipality Info/Resources
5. Wellness & Fitness Info/Resources
6. Entertainment Info/Resources
7. Social/Communication Technologies
8. Emergency Notification Info/Resources
9. Human Essential Need Info/Resources
